Your tasks

- Act as an expert for safety assessments, including risk assessments in accordance with the Machinery Directive and the Workplace Ordinance, as well as other safety-related risk analyses.
- Provide expert-level support in tasks related to the review and preparation of safety-related documentation.
- Assist in the preparation of bid proposals.
- Prepare documents and reports for projects and work packages (in both German and English) in accordance with NUKEM guidelines (Procedures, work instructions, Corporate Design, and project directives).
- Ensure compliance with all relevant legal requirements, industry standards and guidelines, as well as the regulations of regulatory and approval authorities. This includes adhering to procedural and project instructions, such as those outlined in the Engineering Handbook.
- Manage project-specific data and safety expertise.
- Support the training and instruction of customer personnel on assigned safety-related topics.
- Participate in specialized training sessions.
- Independently handle assigned work packages, ensuring timely completion and adherence to deadlines in accordance with applicable work instructions.
- Manage project changes, such as project change notifications, following established rules for project management and quality assurance as outlined in the project management and quality management manuals.
- Prepare presentations for internal meetings, conferences, and other professional events.
- Identify opportunities for business development and expansion.

Your profile

- Degree in engineering or equivalent professional experience.
- At least 5 years of industry experience in the relevant field.
- Knowledge in nuclear technology and radiation protection is an advantage.
- Strong team player with excellent interpersonal skills.

- Assertive and able to confidently manage tasks and responsibilities.
- Proficient in English.
- Knowledge of German is highly desirable.
- Willingness to travel as required.

What You Can Expect From Us

At NUKEM, you'll find a vibrant and dynamic work environment within an international setting. Join us in working on challenging projects that open up opportunities for business travel worldwide. Here's what we offer:

- **Modern Workspace and Equipment:** Work in a contemporary office with views of Lake Gustavsee, outfitted with cutting-edge IT systems and ergonomic, height-adjustable desks. Choose your preferred workspace each day—from private offices to project rooms or collaborative open-plan areas—using our convenient room booking system.
- **Extensive Industry Expertise:** Benefit from more than 60 years of experience in nuclear technology, international customers and colleagues.
- **Diversity and Multicultural Environment:** At NUKEM, we speak 15 different languages. We offer free in-house English language training available both in-person and online.
- **Strong Team Culture:** Enjoy a supportive and inclusive team atmosphere, enhanced by regular employee events, a spirit of collaboration, flat hierarchies, and an open feedback culture.
- **Flexible Working Arrangements:** Benefit from flexible hours and a flexitime account, along with the option to work remotely up to three days a week within Germany. For those who need it, we can also explore options for mobile work abroad.
- **Professional Development:** Invest in your growth with access to internal and external training programs, including lectures from our own NUKEM Academy and a variety of e-learning options on our digital learning platform.
- **Competitive Salary:** In addition to a market-aligned monthly compensation package, we offer annual Christmas pay, performance-based bonuses, a company pension scheme, capital-forming benefits, and allowances.
- **Additional Perks:** Enjoy a range of benefits, including employee discounts, an onsite canteen with subsidized meals, free parking, complimentary coffee and water, and more.

- **Relocation Support:** We'll support your transition to Germany, providing assistance with work permits, residence titles, health insurance, and relocation logistics.
